

RICHARD ROSHAN S

AI Solutions & GTM Engineer | Automating Revenue & Operations Workflows

Chennai, India | +91 91363 47884 | srichardroshan@gmail.com | linkedin.com/in/richard1s

SUMMARY

Computer Science & Business Systems student who builds the AI automation and agents that run revenue and operations teams. Hands-on across the full GTM motion — lead generation, outbound, CRM operations, and pipeline analytics — with real deployments at an RPA company, a founder's office, and as a freelance automation builder. Strong in CRM (HubSpot, Zoho, SAP), low-code automation (n8n, Make, Apify), LLM-powered workflows, and revenue analytics. Turns manual, high-friction workflows into measurable, scalable systems.

EXPERIENCE

AI Automation & Workflow Consultant — Freelance

Jan 2024 – Present

- Build AI automation workflows and agents for logistics and real-estate clients (n8n, Make, Apify, OpenAI APIs), lifting revenue while cutting manual work and acquisition cost.
- Designed agent-based outreach and lead-routing systems that cut manual prospecting and data-entry effort by ~40% for client teams.

Market Research & Automation Intern — Rapid Acceleration Partners

Apr 2025 – Nov 2025

- Built a unified GTM dashboard consolidating social, inbound, and outbound campaign performance into a single window, giving the manager real-time visibility to act on.
- Ran podcast-growth outreach to 2,000+ companies, driving 150 event attendees and converting 5 new clients.
- Automated end-to-end lead generation and scraping, cutting spend on purchased lead databases; grew the founder's LinkedIn from single-digit to 100+ views and impressions per post.

IT Sales Support Intern — Roca India (RBPPL)

Dec 2024 – Jan 2025

- Supported sales operations on SAP/CRM and partnered with the India Sales Head on sales-process optimization.
- Improved internal workflow efficiency through automation across the quote-to-order process.

Founder's Office Intern — Vakkiyi Trade Solutions

Apr 2023 – Sep 2023

- Set up the company's full digital presence — built the website, launched social channels, and ran end-to-end digital marketing.
- Drove recovery during a market downturn by digitalizing manual outreach — built lead databases and ran inbound/outbound that lifted reply rates, converting ~5 meetings per 300 touches and a ~15% sales recovery.

IT Intern — Aspire Systems

Jun 2024 – Jul 2024

- Built employee-management and HR-tracking modules (Java, SQL) used by internal teams.

PROJECTS & VENTURES

KURI — Signal-Based Outbound & Demand-Capture Engine

- Built a Chrome-extension + backend that captures buying-intent signals from Reddit, LinkedIn, and other platforms and routes scored, CRM-ready leads into an outbound workflow — a RevOps-style top-of-funnel engine. (JavaScript, Manifest V3, REST APIs, LLM scoring)

Yukt — AI Freight-Intelligence Platform (Founder)

- MVP platform giving Indian fleet operators real-time weight monitoring, compliance generation, and tracking; own product, GTM, and early customer discovery end to end.

SATARK — AI Survey & Data-Quality Tool for MoSPI

- Survey-intelligence tool for national statistical operations focused on data quality and fraud detection; **awarded a ₹50,000 grant by the Ministry of Statistics (MoSPI)**.

Selected builds: SETU (business-tracking system) · Forzio (founder-productivity platform) · URAIL (unified railway asset identification & ledger) · MARGA (AI defense-intelligence platform) · ARVY (applied-intelligence firm automating operational bottlenecks with AI agents) · LocalBees (NGO empowering local Indian businesses).

SKILLS

Revenue & GTM Ops: Lead generation, inbound/outbound campaigns, pipeline management, lead scoring, funnel & lifecycle ops, sales-process optimization, GTM execution

CRM & Systems: HubSpot, Zoho, SAP, Salesforce, CRM analytics, quote-to-order

Automation: n8n, Make, Zapier, Apify, webhooks, REST APIs, OAuth, JSON

AI: OpenAI & Claude APIs, agentic AI, prompt engineering, RAG, LLM-powered workflows

Analytics: SQL, Excel/Sheets dashboards, Power BI, Google Analytics (GA4), KPI design

Programming & Product: Python, JavaScript, Node.js · Figma, PRDs, pitch decks, UI/UX prototyping

RECOGNITION

Awards: Overall Winner, Sairam Innovation Ecosystem · ₹50K Grant Awardee, Ministry of Statistics (MoSPI) · Finalist, NASSCOM Hackathon · Finalist, Impact AI Summit Buildathon · 3× Startup Pitch Winner · Best Volunteer, JCI NatCon · Best Intern Recognition

LEADERSHIP & EDUCATION

Leadership: President, JCI Chennai Sairam (led 200+ members); organized Tamil Nadu's first JCI Youth Parliament · Vice Chairperson, IEEE TEMS · Speaker, International iGEN Envirothon (COP30); host of national hackathons, webinars & sessions

Education: B.Tech, Computer Science & Business Systems — Sri Sairam Engineering College (2023 – 2027)
